

“EDPR – RENEWABLE ENERGIES THAT MOVE YOU”

WHAT IS THE EDPR UNIVERSITY CHALLENGE?

It is a competition that aims to challenge the student community from leading Polish universities, by awarding projects developed in the fields of engineering, management, economics, marketing and communication applied to the energy sector.

THEMES FOR THE PROJECTS TO BE DEVELOPED

- Environmental concerns vs. Local development.
- Business plan for the promotion of the EDPR renewables activity in Poland.
- Study of technological innovations for the increase in the efficiency of the renewable energies production processes.
- Innovation projects that may comprehend an engineering, management, economics, marketing or communication approach for an enhanced use of renewable energies sources.
